### GeoEstimator®'s Roof Measurement Service is Different

**Accurate, Easy and Inexpensive:  
Streamline Your Business and Save Money**

Whether you're a roofing contractor, independent adjuster or insurance company, GeoEstimator® is the roof measurement service ready to meet all your roofing needs. Our roof measurements – from satellite and aerial images – are every bit as accurate as measurements made in the field. Our turn-around is under two business days. Our measurement prices – most roofs are under \$30 – can't be beat. In addition to saving you time in the car and time on the roof, our roof measurement report is an excellent marketing tool for your company. Give GeoEstimator® a try today and you'll never go back to on-site measurements.

**iPhone App: GeoEstimator®, now there is an app for that.**
